Terms of Acceptance, DISCLAIMER and LIABILITY WAIVER

Non-Medical Nature of Treatment:

I understand that Hypnosis, Neuro Linguistic Programming (NLP) or Time Line Therapy (TLT) are not substitutes for medical attention. Sessions are not a substitute for my doctor's role in monitoring and treating my medical needs.

Advanced Clinical Hypnosis:

I understand that while counselling methods, including Hypnosis, NLP and TLT have been shown to be very effective, no guarantee or claims are being made in regard to my individual results or outcomes.

I understand that hypnosis is not mind control, and that a hypnotherapist has no unusual powers or abilities and merely attempts to communicate in an effective way so as to facilitate my ability to think in a focused manner and thereby obtain my goal. I understand that it is not possible to suffer adverse affects simply from being hypnotized.

Neuro Linguistic Programming (NLP)®

NLP is a system of working with the old habits and beliefs that are getting in the way of a client achieving their goals. By working with the old habit patterns, belief systems and ideas; NLP is often able to quickly help people change or remove old habit patterns and behaviors quickly and easily. NLP only works when the client of their own free will chooses to allow its techniques to work.

Time Line Therapy (TLT) ®

Techniques are used to bring about changes on an unconscious level and alter behavior. The intention of this therapy is to help you refrain from being reactive to present situations based on past experiences. TLT is a reprogramming process that releases the effects of negative experiences and helps a person let go of past influences. It is a powerful technique which allows clients to make long-lasting changes in a very rapid way. Your practitioner is certified as a Time Line Therapy Master Practitioner by the Time Line Therapy Association.

The Richards Trauma Process (TRTP)®

TRTP utilizes all of the above therapies to create quick and effective outcomes for clients wanting to achieve positive changes in their lives.
